POULTRY COMPLEX: 5 Modern environmentally controlled tunnel ventilated sheds with 2 being 160m x 18m and 3 being 160m x 20m with a total floor area of 12,992 square meters.

A central silos system services the sheds and a 60 kw Solar panel system has been recently installed to supplement power requirements with a 250 kva generator back up in place.

Â

CONTRACTS: The property is contracted to Steggles/Baiada Poultry with a 7 x 7 year contract in place. The contract is on a \$ per square meter rate plus a batch payment averaging 5.25 batches per year allowing peace of mind in regards to budgeting and a regular cash flow.

Mail and School Bus at the front gate, updated 3 phase power throughout the property.

REMARKS

This is a well-developed intensive poultry farm achieving outstanding results on a per batch basic with the added benefit of running profitable cattle numbers plus farming and irrigation.

The property has been well managed with a family that has a long and successful history in the Poultry industry.
